

Two truck scales for sale

Both scales are 80ft x 11ft with rail bumpers, One-stop scales

One-stop - A series of scales are used so that the entire truck can be weighed at once. The scales are connected to a single electronic controller that automatically combines the axle weights to get the gross weight.

Both scales have extra load cells (spare parts)

We operated both scales as Certified Public Scales at the Port of Oakland.

Professionally uninstalled by Bay City Scales with all electronic parts stored at their warehouse.

The Centurion from B-TEK Scales is the only vehicle weighing system of its kind available in North America. The Centurion offers the latest digital technology in a unique, money-saving modular design. Utilizing 12' and 24' modules in scales up to 120' and backed by an industry leading 5-year "End-wall to End-wall" warranty, the Centurion is poised to revolutionize the truck scale market. This advanced vehicle weighing system is available in steel deck or concrete deck models. The Centurion's durable construction is designed for long life in tough environments. B-TEK's Centurion scales are used in many applications such as landfills, recycling centers, aggregate facilities, and agricultural industries.
